Presents band from Holland ANTIDOTE,thanks for the answers!!!

1.Hi!How are you?What is the new with Antidote bands?

Hey. Doing good! What's new... we are recording a new record in June, and we will be touring Russia in September.

2.When is started the band Antitode?

We started in 1997. We all had been playing in other bands in different formations together, so it was natural progress that we all ended up together in the same band I guess.

3.Whom is the played sound?Punk,Oi!,Street punk,HC?

We have been labeled '77 punk, crust, oi, streetpunk.... I don't care about labels that much, I just call it punk.

4.Scene.Something about scene in Netherlands?

Holland has quite an active scene at the moment, there are a lot of young bands that are actively touring and making records. The variety of bands is big too, there are a lot of crustbands, a lot of "streetpunk" bands, a lot of HC-bands... sometimes I wish these scenes would mix a little bit more. But if you want, you can choose from at least 3 shows in Holland almost every day.

5.Tell me about your cooperation with your record label?Who is the your record label?

We have worked with Charged Records in the USA and with Dirty faces and Attack Records in Germany and Europe. I don't like talking about "our label", because we do not own the label and the label does not own us. We work together, and lately we have been working with Dirty Faces.

6.Do you listen Serbian punk,oi!,hc band?

Nope, I hate to say that I don't know any.

7.Please tell me somethings of about opinion:drugs,sex,alcohol,football,girl..?

I like all of them, except for football.

8.Concerts?Do you played?

So far we have played over 300 shows with Antidote, all over Europe and the USA. I hope it will be a lot more.

9.Records?How you have issue CD?

2004 split 7" w/ Seein Red
2003 "Back in year zero" LP/CD
2002 split 7" w/ NY-Relx
2000 "Keine Arbeit" split 7" w/ Das Shocks and Die Strohsäcke
2000 "Go Pogo!" 10"/CD/LP
2000 "De Blauwe Moet Blijven" 7"
1999 "My Life" LP/CD
1999 split 7" w/ Worhäts
1998 "Let's Get Drunk" 7"

1997 "Bounce The Bouncer" 7"
1997 demotape
And then we're on a lot of compilations, I lost track.
10.Tell me about your opinion of the band Discipline?Do you listen new album?
I know the people in Discipline a little bit, I don;t really know their music because I don't have any of their recors. It is not my style.
11.Whose is the bands listen?
A lot of bands, too many to mention.
12.All the best from Serbia(Young Forever)zine!Cheers!
Thanks, you too.

FREEZE

Thanks Clif form Freeze for answers!Interview by Stole

1. How are you?

I just turned 44 in April. I have a 3 year old daughter. I recently got married after getting out of Jail for a 6 month sentence for “Larceny Over $250”, I stole $00 in DVD’s from a local K-mart. I still find it hard to find a reason to NOT steal from some corporate monster chain

store who pay their employees shit, treat them like shit and give them hours to work that are shit.

2. What is new with the band Freeze?

Finally, A lot! We should be signing with a new label within a couple of months and recording a whole Cd/LP of NEW material. The music's all written and I'll be writing the lyrics over the next month or two. We're having a friend put up a fully functioning website; we're putting out a full line of merchandise which is something THE FREEZE has never had before. We're in the middle of picking through older LIVE songs from shows from 1982-2005 for a LIVE DVD. We're beginning to make plans for both a U.S. and a European tour sometime next Spring, we're looking to have Dr Strange re-release MISERY LOVES COMPANY with either FIVE WAY FURY or DOUBLE DOSED attached to it!

3. When is the started the band Freeze?

I started THE FREEZE with my boyhood pal Rob Rosenthal, later to become "Rob Decradle" in 1979 when we wrote I HATE TOURISTS. We recorded and released it as our first 45 in 1980.

4. I have 3 Cd`s the Freeze, sound is Punk Rock aggressive, do you next album Punk Rock sound?

I think every time we put a new CD/LP out it's the same style as the others before it, just with better musicianship and songwriting. "Aggressive Punk Rock" is all I know how to play and all I'll ever want to play. After 25 years why change now?

5. Your text somewhat anarchistic? Do you believe in anarchy? How release movement anarchy?

I believe in the concept of Anarchy. With the mental states of most people being unable to comprehend the idea of it never mind being able to successfully live the lifestyle, I feel 100$ that we will never see it work on a major scale in our lifetimes.

6. Tell me about Punk Rock/Anarcho scene in your town?

You don't understand where I live. It's a small town in a Tourist trap of an area in the state of Massachusetts called Cape Cod. It's known as a party place for college Jocks, drug addicted seasonal fishermen, a booming bullshit economy in the summertime and a dead end, dried up fall and winter. There is no Anarchy scene here nor would I want one to be. The mentality of most of the adults is that of a Reagan-loving Republican and any kid who views life as worth living gets out as soon as they're able to. That's the concept behind the lyrics to our song AMERICAN TOWN

7. What listen about music? Only Punk rock or not?

Over the years I've listened to everything at least once. I'm old enough to pre-date Punk Rock and when I was 14 or so in 1973 I was listening to David Bowie, The Sweet, Black Sabbath, Alice Cooper and The Who. Once I first heard THE RAMONES in 1977 it was all over for me. I went out and bought everything that even looked remotely Punk, and you know what? Back then you could do that and like most of what you bought. I'll never forget buying THE DEAD BOYS, THE STRANGLERS, THE DAMNED, THE DICKIES, THE BUZZCOCKS, THE CLASH, THE SEX PISTOLS etc, etc, on one trip to the local store and not leaving my room or my record player for months!!!

8. Do you have problems with establishment, fucking police, fucking army...????

I like to think of it as the establishment has a problem with me. I generally mind my own business, meaning I don't intentionally hurt anyone. But in this society it's not enough to just mind your own business and not hurt another person. This is a society full of so-called "Victimless Crimes." Where you don't even have to leave your house to become a notorious criminal. If I want to do drugs, I don't drive fucked up putting anyone else in danger, just staying in my house after working for "the man" all day I don't think that should be anyone's decision but my own. Instead over here in the U.S.A. the jails are 4 times as full as they were

20 years ago and it's due to the racist drug war hysteria. There are more people in jail for breaking drug laws, actions that usually didn't hurt anyone else but possibly the user, than for all other types of crimes put together!

9. Tell me about with cooperation with your record label Dr. Strange Records???

Bill Plaster and Dr. Strange records have been the most decent people we've ever worked with and we've worked with some real crooks. Taang records and Germany's Lost & Found are two of the greediest, shadiest, bullshit operations on this planet. Thankfully there are small but honest labels such as Dr. Strange to help give Punk Rock labels a good name!

10. Concerts? How is the concerts played? Who is the best?

Back in the early to mid 1980's we were fortunate to be able to play with almost all our "heroes"! We've played with The Dead Kennedy's about 8 times, The UK Subs (with Nicky Garrett on Guitar) a couple times, The Misfits w/ Glen Danzig, Naked Raygun, Bad Brains, The Anti Nowhere League, The Circle Jerks, Fear, Channel Three, Social Distortion, The Dickies, 999, and the list goes on and on. Some of the best shows that we headlined were on our first European tour. We played a show in one of the break away republics of Yugoslavia just 60 miles from the war zone where no one spoke English yet when we played the people almost all knew the lyrics and sang along with us. That meant a lot to me! Then we played the largest show we ever played as a headliner in Italy at an anarchist collective to over 1500

people! Another great show was playing here on Tourist Trap Cape Cod with Black Flag at the height of their nastiest! There are so many great shows

11. Do you have violence on your concerts?

Sadly, I think almost every band does at one time or another. There was a time that some in the Boston scene decided they were "Straight Edge" and then decided that no one else around them would be permitted to drink alcohol. So you had these pimply faced skinhead Jocks bouncing around the pit knocking beer out of paying customers hands and elbowing-kicking-beating up, others who didn't look like them or follow their new "rules" they made for every one else. I had to stop dozens of shows when these no-IQ goons would start fights with innocent people they didn't think looked cool enough. I wrote the lyrics to NAZI FUN off our LP LAND OF THE LSOT about this very thing!

12. How will ourselves call new album?

Not sure yet. I'll have a better idea of that once I'm done writing the lyrics for it. So far a couple song titles are SLEEPLESS HEADS and SOMEBODY'S BEEN BLEEDING.

13. Do you read fanzine? Do you read my Mail fanzine Young Forever? Do you liked?

I read as many fanzines as I can find the time to. Sorry to say that I hadn't heard of yours until Dr. Strange forwarded your email to me. Is it in English? If so, I'm definitely looking forward to you sending me a couple of copies so I can check it out!

14. All the best!

Same to you and all your readers! There are big things that will be happening with THE FREEZE over the next year, please stay in touch! If anyone wants to email me personally my address is rabidreaction@adelphia.net OK, take care and thanks for taking the time to come up with the questions for this interview!!!
